www.dynamicvision.gr.

Submit offer to: info@dynamicvision.gr

Further details (only available in ENG language)

Project summary

MED-Interreg project. Duration 36 months.

Priority Axis 1: Promoting Mediterranean innovation capacities to develop smart and sustainable growth.

PI 1.b. Investment Priority 1.1. To increase transnational activity of innovative clusters and networks of key sectors of the MED area.

Thematic area. Green Growth.

SYNGGI aims to support the modular approved projects under the priority Axis 1. Innovation of the Interreg MED Programme. The activities will support the sub-objective 1.1 and especially the Green Growth sub-priority, in order to serve the targets and strategies of the Managing Authorities for the MED Area. The project has been designed as an agile tool that will unify project results, support MED stakeholders and create a fruitful and collaborative environment for all implicated bodies.

Additionally the project will fully comply with the Interreg-MED strategy according to which the Horizontal projects will act as a bridge between the Modular projects, the Governance project-"platform"- of Axis 4 and the EU policy makers. SYNGGI has been structured to support communication, capitalization activities and at the same time it aims beyond MED territories, across all EU countries, as deemed fit by the Programme Authorities. That way the project is a valuable adjustable partner for the Interreg Programme, ready to answer to its needs and offer innovative solutions that will produce unified results and solid proposals for environmental policies.

Procurement process

This procurement is an open call for tender where all suitable companies are invited to submit offers. Members of the tender team are expected to have relevant qualifications and proven experience. The selected tenderer (individual professional or a company) should have good knowledge of project management, managerial skills and should have

experiences in auditing and consulting. Before submitting your proposal we strongly advise you to enter in the MED-Interreg website, all Community’s social media channels and study carefully the content of horizontal projects and Green Growth Community’s role as well as the structure of the MED-Interreg grid and the general demands of the Programme.

Tenders shall be submitted to: info@dynamicvision.gr, by 27 February 2018, 12:00 noon CET. Only one tender will be accepted from each candidate.

Opening of tenders. 28 February 2018.

Candidate selection. 28 February 2018.

Initialization of work. 1 March 2018 (as soon as possible).

Communication and questions. Ms Tsami Natalia, info@dynamicvision.gr.

Until signing of the contract, no communication shall take place between candidates and persons other than the contact person.

Content of tender and award criteria

The tender shall be structured like this:

1. Competence/experience. Summary of experience with similar work. Description of projects. The manager(-s) that will take over the work must provide a relevant document proving their skills on project management/auditing.

2. Quality of proposal.

2.1 Methodology. Description of the applicant’s approach to delivering the requested services and specific methodology that will be applied in this assignment. It should include a short description of the monitoring tasks and the approach on how to conduct the evaluation of the whole project. It must be demonstrated how to approach partners and how to acquire a better knowledge of the progress of the project so far. A suggestion of probable tools and/or innovative monitoring procedures that are not already described and are feasible to be integrated in the M&E Plan will be of great importance.

2.2 Understanding of the assignment. The description of the project’s needs, when it comes to evaluation will be of great importance.

3. Price offer

4. Availability within the period. 1 March 2018 – 31 May 2018. This part should indicate the availability of the company, individual manager, individual professional and/or any collaborating experts within the proposed time period.

5. Any other supporting documentation, if necessary.

6. Award criteria (scores). Each tender will be assessed as described below. The contract will be awarded to the offer with the overall highest score:

1. Competence/experience:

Previous experience, evidence of experience with similar work (2 pages max.). Max points: 20

TOTAL 20/100

2. Quality of proposal:
